## Conclusion

This is also the normal body copy font. The reference style is APA 6<sup>th</sup> edition. There are two options.

Option 1. Cite the article within the text as author and year in brackets e.g. (Vas et al., 2017). The reference list would

## References

This is also the normal body copy font. The reference style is APA 6<sup>th</sup> edition. There are two options.

Option 1. Cite the article within the text as author and year in brackets e.g. (Vas et al., 2017). The reference list would then be in alphabetical order.

Option 2. Number the references throughout article using superscript. The reference list would then be in numerical order.

## Authors and investigators

For FSNs use: Principle investigator/External investigator/internal investigator/Author (choose just one)  
First name and surname, MSc/PhD

Photos within the same document should be preferably all in color. If not possible, then all black-and-white. They should also have the same dimensions (as far as possible), square with width 3.5cm. Photos should be positioned on the left with the text

wrapped (wrap text > tight).

Solveig Christina Voss completed her training as a hearing aid acoustician at the Academy of Hearing Aid Acoustics in Luebeck, Germany, in 2011. Until 2014, she studied hearing aid acoustics at the Luebeck University of Applied Sciences. Since 2014, she has been

working in the Research & Development Department of Sonova in Switzerland, China and Canada.
